## Summary

I have been rigorously preparing for a career in full-stack development for the past 1.5 years.

I've successfully completed the Full Stack Web Development course from iNeuron.ai and the MERN Stack course from Udemy, earning certifications and gaining expertise in technologies like JavaScript, React.js, Node.js, Express.js, MongoDB, and MySQL.

I have hands-on experience creating diverse projects, including a Facebook clone and a comprehensive eCommerce website using the MERN stack. Driven to craft scalable, high-performance applications, I'm continually expanding my skill set to develop seamless, user-centric solutions.
